WOOD & STEEL

👥 2-5

👤 8+

🕐 30'

Ride the world's greatest roller coasters, each one better than your last!
Collect all the souvenirs and be sure to get on that big one before you run out of time!

HOLD ON TIGHT!

Which roller coasters will you ride first? Save the best ones 'til last - but don't leave it too late before the park closes! Ride the blazing-fast launch coasters before everyone else, or try to do the most drops. Loop as many loops as you can, and don't forget to collect the souvenirs!

In Wood & Steel you'll be drawing, discarding and playing cards to ride roller coasters. Planning what to ride next becomes increasingly tense and tricky as you try to anticipate when the game will end - there's not enough time to ride all the coasters! The game ends when the deck becomes empty, players add up their points from their coasters, and the player with the most points wins!

The roller coasters
50 different coasters, rating 1 to 99...

Draw/discard cards

5 different ways to score points...

🪵★🔩 Wood x steel

Riding a better coaster each time scores more points. For each coaster you played that has a higher rating than ALL coasters you played before it; total up the wood and the steel and multiply them together.

🔥🔥🔥 Fastest launch

Ride 3 launch coasters before anyone else does.
